All Industry Training Organisations

Organisation Type: **Industry Training Organisation**

Year: **2009**

Achievement of Credits

All Levels of Study

50%

| | |
|------------------|-----|
| Levels 1 & 2 | 38% |
| Levels 3 & 4 | 57% |
| Levels 5 & above | 48% |

This measure shows the number of credits that were achieved by trainees in a given year, as a proportion of the credits trainees were enrolled in.

Completion of Programmes

All Levels of Study

41%

| | |
|------------------|-----|
| Levels 1 & 2 | 25% |
| Levels 3 & 4 | 49% |
| Levels 5 & above | 43% |

This measure shows the number of programmes that were completed in a given year as a proportion of the equivalent programmes trainees were enrolled in.

About Industry Training

The TEC funds 38 ITOs through the Industry Training Fund and Modern Apprenticeships. These organisations range from small ITOs covering a single industry to larger ITOs covering multiple industries. ITOs have three statutory functions: to set skill standards for their industry; to develop arrangements for the delivery of training; and to provide leadership within their industry on skill and training needs.

Industry training is workplace based and can be episodic. Trainees learn on the job while working part or full time and can enter into a training agreement at any point of the year. Many of the industries that ITOs represent have long established trades and apprenticeship models with an associated history and culture of regulated training. Other ITOs may represent industries which are still developing a systematic approach to standard setting and embedding training.

Industry is expected to make a cash contribution equivalent to at least 30% of the costs of industry training. Firms may also contribute to the cost of training in other ways.

Government expectations of Industry Training

The Government expects Industry Training Organisations to:

- Enable working New Zealanders to complete nationally recognised qualifications
- Create clear pathways towards advanced trade qualifications at levels four and above
- Build and maintain strong support from the industries they serve.

Tertiary Education Strategy

The Tertiary Education Strategy calls for better performance from the tertiary education sector as well as raising achievement for all learners under 25, and for Māori and Pacific learners.

Context

Number of trainees: 206,646

Number of STMs*: 68,924

| Trainee ethnicity* | | Level of study | |
|--------------------|-----|-------------------|-----|
| European | 63% | Level 1-2 | 33% |
| Māori | 18% | Level 3-4 | 64% |
| Pacific | 7% | Level 5 and above | 3% |
| Other | 11% | | |

*Standard training measures - an STM is the amount of training required to achieve 120 credits.
