All Industry Training Organisations

Organisation Type: **Industry Training Organisation**
Year: **2010**

Achievement of Credits

All Levels of Study
65%

Levels 1 & 2	58%
Levels 3 & 4	69%
Levels 5 & above	44%

This measure shows the number of credits that were achieved by trainees in a given year, as a proportion of the credits trainees were enrolled in.

Completion of Programmes

All Levels of Study
55%

Levels 1 & 2	45%
Levels 3 & 4	59%
Levels 5 & above	63%

This measure shows the number of programmes that were completed in a given year, as a proportion of the credits trainees were enrolled in.

About Industry Training

In 2010, the TEC funded 38 Industry Training Organisations (ITOs) through the Industry Training Fund and Modern Apprenticeships Scheme.

Industry training organisations do not provide training themselves, but act as brokers between employers and training providers.

ITOs range in size from small ITOs that may cover a single industry to large ITOs that cover multiple industries

Many of the industries that ITOs represent have long established trades and apprenticeship models with an associated history and culture of regulated training, other ITOs may represent industries where the culture of training is still developing.

ITOs are expected to receive a cash contribution from their industries. The volume of this contribution is expected to be at least 30 percent of the total funding an ITO receives. Firms may contribute to the cost of training in other ways.

Government expectations of Industry Training

The Government expects Industry Training Organisations to:

- Enable working New Zealanders to complete nationally recognised qualifications
- Create clear pathways towards advanced trade qualifications at levels four and above
- Build and maintain strong support from the industries they serve.

To give effect to these expectations, ITOs have three statutory functions:

- to set skill standards for their industry
- to develop arrangements for the delivery of training
- to provide leadership within their industry on skill and training needs

Tertiary Education Strategy

The Tertiary Education Strategy calls for better performance from the tertiary education sector as well as raising achievement for all learners under 25, and for Māori and Pacific learners.

Context

Number of trainees:			195,963
Number of STMs*:			58,351

Trainee ethnicity*		Level of study	
European	63%	Level 1-2	35%
Māori	17%	Level 3-4	61%
Pacific	8%	Level 5 and above	4%
Other	12%		

*Standard training measures - an STM is the amount of training required to achieve 120 credits.

Organisation Type: **Industry Training Organisation**
Year: **2010**

Achievement of **Credits**

All Levels of Study
84%

Levels 1 & 2	92%
Levels 3 & 4	88%
Levels 5 & above	42%

This measure shows the number of credits that were achieved by trainees in a given year, as a proportion of the credits trainees were enrolled in.

Completion of **Programmes**

All Levels of Study
52%

Levels 1 & 2	50%
Levels 3 & 4	60%
Levels 5 & above	22%

This measure shows the number of programmes that were completed in a given year as a proportion of the equivalent programmes trainees were enrolled in.

## Context

Trainees: 5,221

STMs*: 1,782

Industry Coverage

Industry Cash Contribution: 15%

Further information about trainee characteristics may be available on the organisation's website.

*STMs (Standard Training Measures) show the number of equivalent full-time trainees.
Trainee Ethnicity

European	66%
Maori	21%
Pacific	5%
Other	8%

Level of Study

Levels 1 & 2	42%
Levels 3 & 4	47%
Levels 5 & above	11%

Trainee Age

17 Years and Under	0%
18 - 19	3%
20 - 24	14%
25 - 39	35%
40 Years and Over	48%
